

Ask Dr. Mikell

By Dr. Oswald Mikell

Dr. Oswald Mikell, MD • Dermatology Associates of the Lowcountry

American Board of Dermatology | American Board of Cosmetic Surgery | Physician of the Year 2008

Let's face it, women are not the only ones concerned about the way they look, yet cosmetic surgery and dermatology treatments have long been their domain. Well guys, the secret is out. Men from all walks of life are now turning to professional skin therapists for a more youthful look. With so many new procedures available, cosmetic dermatology has finally become an equal opportunity option.

Q: I want to improve my appearance, but how do I know where to begin?

A: There are plenty of options available to you - whether you want to reduce the appearance of wrinkles and crow's feet, remove tattoos or simply make your skin more radiant and smooth, your dermatologist has a treatment that can help. All you have to do is ask!

Q: What treatments do you offer for men?

A: The same services we offer for women are available for men such as: laser treatments, fillers, Liposuction, cosmetic surgery or facials.

Q: What other services do you offer that may be of particular interest to men?

A: Hair transplants, laser hair removal, birth mark and tattoo removal.

Q: Why would men be interested in dermatological / spa procedures?

A: If looking well-rested, relaxed, and on-top-of-your-game is important to you then a dermatological/ spa procedure is a fantastic and accessible resource to help you achieve that healthy, youthful appearance.

Q: How do I know what treatments are best for me?

A: Call Dermatology Associates of the Lowcountry and schedule a consult (843) 689-5259
